Training Requirements for 8-Hour Site Safety Manager Refresher / Chapter 33

Per NYC Department of Buildings (DOB), Section 104-6 of Title 1 of the Rules of the City of NY, this course satisfies licenses continuing education renewal requirements for the Site Safety Manager (SSM) License or Site Safety Coordinator (SSC) Certificate. The SSM license expires every three (3) years and holders must complete this course one year immediately prior to renewing their license. SSC certificate holders must successfully complete this course every year, as the NYC DOB requires annual renewal of the coordinator certification. For more information, the license renewal process with the DOB, [click here](#). As of October 2019, the DOB is accepting this training to satisfy the continuing education renewal requirements for Construction Superintendents. The course must be taken one (1) year prior to the renewal. To access the DOB's Construction Superintendent Registration Renewal Checklist, [click here](#). As of April 2019, this course may also be used to satisfy 8 hours of prescribed training for a Site Safety Training Card, as is required by Local Law 196 of 2017.

Audience

Experienced Construction workers, supervisors, and other personnel responsible for construction activities with general knowledge of the New York City Building Codes as it relates to worker and public safety. Individuals applying for a Site Safety Training

Card. Course Description

The 8-Hour Site Safety Manager Refresher / Chapter 33 Training course is a refresher to the 40-Hour Site Safety Manager Course, which is a comprehensive presentation of Chapter 33 and the Rules of the City of New York that pertains to public protection . During the training, students will review the hazards of working in the New York City construction environment and the specific methods and work practices that are necessary on an urban construction site.

Learning Outcomes

Upon completion of this course, the student will be able to:

- Compare roles and responsibilities of New York City Department of Buildings licensed site safety professionals
- Recognize which rules and regulations were promulgated after serious construction accidents in New York City
- Identify safety procedures to protect public and property during construction and demolition operations in New York City
- Define construction fire protection and prevention methods that comply with the New York City Fire Code
- Describe communication procedures between New York City Department of Buildings and licensed site safety professionals

- Distinguish between the OSHA standards and New York City Department of Buildings

Chapter 33 regulations

Completion Requirements

Students are required to complete 100% of the course and actively participate in all learning activities including review quiz and hands-on exercises.

Make-up time is not permitted for this training course. Should students miss any portion of the training, it is the student's responsibility to contact TSCTA to arrange to attend another scheduled event.
